Comments: Thank you for the opportunity to submit comments to your proposed new rules 7700 & 7710. As a mountain biker, it's important to me that we are careful in how we manage electric-assist mountain bikes on trails to protect the user experience of those recreating on non-motorized USFS trails.

I'm extremely concerned about the current approach to classify e-bikes as motorized vehicles.

Personally, I feel all e-bikes should be categorized as motorized and do not feel any class of e-bikes should have access to non-motorized trails.
