Comments: Please do not allow e-bikes or any motorized or electric vehicles on trails. They allow people to go too fast on multiuser trails endangering everyone. People on bikes can go faster than their physical coordination on a regular bike would allow them. They are heavy and often too heavy for many people to keep control of. They interfere with the trail/outdoor experience. Maybe it's time to make separate trails for mountain bikes and bikes keeping them off trails for hikers and horses. Don't turn our national parks/ Forrests into bike parks and city streets taking away what is special about them. Thank you
