Comments: In regards to e-bikes, mountain bikes, ect, being able to use same trails as equestrians..I do not support sharing trails with bikers. It is dangerous, and they are taking over all of our areas that we have left to ride. Please leave what's left for the equestrians, we are very limited as it is. This is by far the most unfair I've seen yet!!! We are already being taken over by them camping in our horse facility's leaving us No where to go! This has got to stop!
