Title:

Comments: My apologies I that we are trying to share the trails with everyone but this year has been the worst in regards to bicycles in general. I ride horses with my daughter and love using all the trails available. Everyone is not knowledgeable on use of right ways and I feel people on these type of bikes will cause even more issues to equestrians and hikers. The bicyclist already go way to fast on trails as it is. Somebody can be hurt seriously when there is total disregard for trail etiquette.

Sincerely concerned, Theresa Hardy
