Comments: An ebike is not a motor bike. It is an enhancer only when one is pedaling. So what is the big deal about defining an ebike separately into a regular bicycle. Seems to me that's non sensical.

I'm 74, got my ebike 18 months ago and have done 2000 miles, mostly near where I live in Tiburon.

The ebike is a fabulous invention for us older folks to enjoy the beauty of Marin and Sonoma. Let us keep keep it to enjoy..why take it out on a recreation that doesn't use fossil fuels or disturb the environment and the animals.

This isn't snowmobilling.
