Comments: Dear USDA/USFS Please do not allow electric bikes in the Wilderness. When someone gets killed, and it will happen. I hope they sue and WIN. No one will hear them coming. They will be traveling faster and anyone on foot or horseback. This is a very dangerous idea. I ride in the wilderness all the time. If I or any friends of mine get killed or hurt for this reason. I hope they go after you all with gusto. Please I beg you do not let electric bikes in. They are still motorized. When will this be left the way it was meant to be. Wilderness!
