Comments: Our store, The Elephants Perch here in Ketchum Idaho has been involved with E Bikes since the beginning of the E Bike...The E Bike has changed the lives of many people in a positive way....The give the riders an assist that is calm and effective. I often say that it is a Bicycle first and foremost....if you do not pedal it does not go anywhere, so it works for everybody....The E Bike on the Trails or on the roads are wonderful for all riders.... it gives them all a very nice assist of the bikes propulsion, and allows all riders to enjoy bicycle riding without a motorized system at all...If you pedal it goes, if you do not pedal it does not go anywhere....and ever since the E Bike has been available, it is a great assist for all riders....no noise, no pollution, just a wonderful ride on the roads, trails, and or bike paths they are quiet and they give the E Bike rider a wonderful experience on the roads, trails and almost anywhere they wish to ride their bicycle.
