First name: DENNIS

Last name: STIFFLER

Organization:

Title:

Comments: By allowing this you will be responsible for serious injuries to horsemen and their animals. There is nothing more relaxing then to enjoy the beauty and serenity of nature then to be on a slow walk on a horse, and/or a hike on the trails. Adding motorized bikes will add to speeding machines whizzing down the trails and you know how they like speed on those things. This will also enter the young men who will be riding irresponsibly and enter the use of drugs and alcohol commonly used by the young adults and also adolesence minors. I would think that restrictions such as speed and age would want to be considered if allowed. IN CLOSING I WANT TO SAY THAT THIS IS A DANGEROUS IDEA THAT WILL RUIN OUR FOREST LANDS AND TRAILS.
