Comments: Hi I sincerely hope you consider opening up these trails to e bikes. My family enjoys hiking and taking advantage of the wonderful state parks around us. We are also purchasing e bikes that we can carry our kids on the back and enjoy biking together. The pedal assist allows my maybe a bit out of shape self to get out in nature with the kids and be sure to safely arrive back. It allows more people the chance to enjoy even the quite long trails. Thanks for considering my voice
