Comments: Dear Sirs and Madames,

Our family enjoys the use of our nations trails for hiking and horseback riding. We are vehemently opposed to opening these trails up to E-bike use. The trails will be deteriorated with tire track ruts and the safety of hikers and horsemen is jeopardized by E-bike users who are ignorant to what lies around the next curve.

Please, protect our nations lands as you are charged to do. Say no to E-bike profiteers and lobbyists.
