First name: Karen

Last name: Gustin

Organization:

Title:

Comments: Please do not allow any e bikes on trails that are designated for hiking only OR for equestrian only. Bikes are intrusive and unnecessary and only belong on multi use designated trails, no matter how quiet they are. There are plenty of miles of trails to go around for everyone.

As an avid equestrian, I can tell you that bikes would not be able to exist safely around horses. As an avid hiker, I feel the same way.
