Title:

Comments: I ride my ebike on trails. It is a class one bike and I respect all trail users.

I am 66 years old and it helps me to do more exploring than I would with out it. There are a lot of hills I just can't make it up. I think limiting to class one may be a good idea. Pedal assist, Max 20 mph, under 750 watts.

They are clean and non polluting. All trail users need to use trail etiquette. Horses, runners, walkers and ebikers.

Please continue to allow these.
