Comments: I am NOT in favor of allowing E-Bikes on these trails that are designated for hiking , horses and mountain bikes. These E Bikes are simply a form of Moto-Cross which is a form of motorized Bike racing. Having an E-Bike or a group of eBikes coming behind a horse at a fast rate can be devastating, as horses are prey animals and cant see directly behind their bodies!! E-Bikes should not be allowed on these pristine trails designated for the enjoyment of nature. There should be no allowance for those who want to race around these trails and who would not have the best interest of others on the trail. Please do not allow this to happen. WE have enough to worry about in this world today than revamping trails at great expense to taxpayers. If E Bikers want trails, let them go in together, buy some land and build their own trails at their own expense. I am NOT in favor of allowing this to happen to our trails.
