Title:

Comments: I fully support the opening of non-motorized USFS trails to ebikes. When you look at the demographics of e-bike purchasers most are older with a variety of wear and tear body issues.

The ebike allows them, once again, to get out and get on trails and enjoy the outdoors and nature and get some exercise.

Our nationl forests need to be for everyone and as accessible as envrionmentally possible. Our forest trails should not be only for the yong who can hike a hundred miles. That is what wilderness areas are for.
