Title:

Comments: Please do not allow E bikes on trails. It is dangerous and reckless for them to interact with horse riders and hikers. They will be fast and noisy. It will disturb the quiet serenity of the trails in the forest. People enjoy the forest to hear and see natural Animal life. People want to get away from the noise and hustle of cities, traffic and stress of work. Allowing electric bikes would take away from that.

We are horse riders that look for safe trails to ride. We are in our late 60s. We enjoy a quiet ride in a forest. We like to listen listen to the wind in the trees, seeing deer, squirrels, turtles and all kind of beautiful animals. E bikes would scare them away. If a biker chooses to be wreckless and race threw the forest on the trails and encounter people or animals that would be tragic. You can be sure they wouldn't stick around to take responsibility for their damage.

The forest is not the place for E bikes. The next problem would be dirt bikes, motorcycles and whatever demanding equal rights as E bikes.

Who wants to escape to a forest we're they might have to dodge an E bike and not have a chance to escape the noose of the world. NOBODY!

The forest is peaceful natural beauty. E bikes do not belong in a forest, period!
