Title:

Comments: I e-bike. I use my bike constantly, and love the sense of joy it brings me.

However, I don't need my mechanized fun to take me everywhere - 40% of roads and trails are open to me, and that's enough. There are others in the forest who need some peace, and a quickly approaching e-bike does not offer our co-habitants that. So, whether it's hikers talking in a line or a mama bear and her cubs berrying, I don't want my good time to ruin their days.

E-bikes are wonderful, but they have a time and place. Not ALL times and ALL places. Please do NOT open public lands further to e-bikes or ORVs.
