Title:

Comments: I do not want any motorized vehicles on public Parks. Class 1 ebikes that have no throttle, and you must peddle, the battery stops when you're 20 MPH, is the only ebike one permitted. I'm 82 yrs., and have a Towney 8i, I love it, and see so much of the country I'd never seen before. It makes no noise, and I'm usually cruising at 8 mph on safe trails. Thank you for your work on our Parks.
