Title:

Comments: I support the use of Class 1 or 3 ebikes on trails that are also suitable and designated for use by non-electric bikes. I am both a hiker and a mountain biker, and understand the importance of segregation in certain areas; some trails should never be open to bikes of any sort.

I do not own an ebike. The reason I specifically support ebikes is that like everyone I am getting older and there will be a point in time when I am physically unable to do a long trail ride. A ebike offers the possibility of extending a life long, active past time that has kept me healthy.
