First name: Christina

Last name: Dunbar

Organization:

Title:

Comments: No, no , no and NO electric any type of vehicle allowed on hiking trails. Jeeps barely have road access. This is not keeping forests wild. The priority National and State forests systems should be protecting the natural environment and ecosystem. They should not be treated like an amusement park. More money needs to go to the forest and park service. A new administration will change that. Please don't sell out OUR land out.
