Comments: Please do NOT allow e-bikes on Horse Trails! Any type of bikes can scare horses and cause riders both young and old to be seriously hurt! When a horse is surprised by a bike, maybe coming around a curve in the trail towards the horse, can cause the horse to jump, rear up, jump sideways even bolt and run. Any rider no matter how experienced can lose their balance, possibly get their foot stuck in a stirrup, then could be dragged by the horse. Injuries can be fatal. Is your E-bikes worth someone's life? Many trails are in Forrest land, a rider could easily be thrown up against a tree causing multiple injuries that no helmet can prevent. Would it be worth the life of a child? No. Please vote NO and leave Horse trails for horses and hikers ONLY!
