First name: John G.

Last name: Light

Organization:

Title:

Comments: I'm 81 years old and have spent most of my career in the mining business as geologist and engineer. I don't think I've ever seen a mining project that is such a benefit to everyone concerned, as Midas Gold's Stibnite Project. One of the metals they will produce is a strategic metal which we now must import from a country which is not particularly friendly to us. Much needed jobs will be created and taxes will be paid to the County, State and Federal governments. And, when they leave, an eyesore will have been changed back to nearly pristine beauty and the fish habitat will have been returned.

I urge you to approve Midas Gold's Stibnite Project.
