Comments: Our parks are the last place to find peace and quiet in this crazy world. To now make our parks a speeding event goes against everything that people go to parks for. I hike and ride horses in 14 parks in the MO area and have found most conventional bike riders considerate but some are not. They consider the parks their race track and are dangerous to hikers and horse riders as well. Please protect our parks for the animals and the people who come to these areas for peace and enjoyment. Especially in remote areas.
