Comments: As an avid trail horse rider it isn't wise to let electric bikes on non motorized trails. As it is When we are a trail that we share with Bikes we can not hear them at all until they are right on us. Several bicyclist have run right into horses causing injury to both the horse and cyclist . Allowing electric bicycles on the trails with horses is just an serious injury waiting to happen. As horse people we don't have that many trails as it is to ride without bikes.
