Comments: Dear Sirs,

Thank you for the opportunity to comment on this matter. I strongly oppose any proposals to allow electro-bikes on any trails that are currently designated for non-motorized use.

In these turbulent times when there is more and more pressure on wild and primitive areas by a burgeoning human population, it is evident that the country that is in shortest supply is that which is most primitive. Therefore, it doesn't make sense to turn already primitive recreational opportunities into more populous and intrusive motorized areas.

Again, I am strongly opposed to any effort to ease restrictions on non-motorized trails. Plain and simple, there is no difference between an e-bike, trail-bike or motorcycle. Therefore, any trails that are closed to trail bikes should also be off limits to e-bikes.

Again, thank you for the opportunity to comment on this important management decision.
