Title:

Comments:

I support the USFS classifying e bikes into 3 categories.

-Class 1, pedal assist to 20mph

-Class 2, throttle assist to 20mph

-Class 3, pedal assist to 28mph.

I support keeping e bikes classified as non motorized, as long as they are under 1 hp (750 watts)

I support class 1 bikes being allowed to travel wherever non e bikes are allowed!

Thank you for allowing me to comment!
