Comments: As a horseback rider, I am concerned that e-bikes would create a dangerous environment for horses, riders, and hikers. E-bikes can travel faster than pedal bikes, making them harder to control around turns and harder to stop in time for others on the trail. This is frightening for a horse, which can cause them to spook, bolt, rear, and kick. As it is, I would like to see more education on trail etiquette for non-motorized bikes.
