Comments: As a business owner in Bend, Oregon the acceptance and allowance of eMTBs is vital to our continued success. We are a mountain bike media outlet and as a forefront leader in testing/reviewing eMTBs, I have been considering relocating my business to a more ebike friendly area so we can legally test, photograph and ride these new bikes and create honest, trustworthy content for the FASTEST growing segment of outdoor recreation right now. As a lifelong mountain biker, many of the close-minded and intolerant arguments against ebikes come from entitled "I've earned it" types who cling to erroneous information about trail erosion, accidents and other concerns.

I whole-heartedly support CLASS 1 eMTB access and appreciate you taking time to let us comment!

Thank you

Drew
