Title:

Comments: To Whom it May Concern,

I ask that you reflect on the damage that will be had if the Stibnite Gold Mine Project happens. I ask you to reflect on the Pros and Cons, and ask yourselves who is directly effected by the Pros (the company receiving money, and what will forever be impacted, the native fish, locals, recreation users, the watershed and so many more. Don't be on the damaging side of history.

Thank you.

Kayla Lopez
