Title:

Comments: Please let the record show that I object this project for the following reasons; 1) there is no insurance of continuing of preservation of habitat or water quality desperately needed for threatened fish species. 2) containment of toxic chemicals is not sufficiently accounted for more analysis would be required after the recent increase of seismic activity within close proximity to the project area. 3)there have been no acceptable provisions made under any action alternatives which maintain unrestricted public travel on or to access public land. Please choose the no action alternative. Kirk Barnum (down river resident and business owner.)
