Comments: Hello! I am a whitewater enthusiast with plans to move to Idaho and live out the rest of my days there. A large part of my plans involve paddling the South Fork of the Salmon as it is and not brutally destroyed. Please go mine somewhere else that doesn't have such a beautiful setting and incredible community. The lives built around this river; both human and non human will be impacted and for some, eliminated by this project. Please think of the ecosystems you will be affecting and how, no matter how small they may be, they have been here a lot longer than you or I and we should be working to protect them rather than kill them.
