First name: teresa
Last name: rogerson
Organization: world surf kayak association
Title: secretary
Comments: I am one more kayaker, one more recreation professional who is wholly opposed to stibnite mining on the South Fork Salmon River in Idaho. That's my home away from home! We can't keep giving the land away to special interests. Besides, the South Fork Salmon travels through PUBLIC LANDS. It's not anyone's to exploit for profit or otherwise! Do I really have to tell you this? I implore those who have the power not to desecrate this awesome wilderness to do so, and to help make sure it stays completely intact. We can't afford this. Thank you.
