Title:
Comments: I am opposing your mining project on the South Fork of the Salmon because, in simple terms, it is a project that only considers profit over the consideration of wild animals, fish habitat, river habitat, water quality, air quality, and an overall quality of wilderness, that will be gone forever if this project is allowed to move forward.
I URGE you to to stop forward momentum with this project. It is for the benefit of all living creatures, great and small.
Thank you for your time.
