Title:

Comments: My name is Lindsey Wimberg and I oppose the Midas Gold mine. I am an avid river rafter/kayaker and have treasured the South Salmon and the community that thrives around it. My major concern is that of the communities that thrive off of the tourism the river brings, that will ultimately be doomed by the creation of the mine. A supplemental DEIS is needed to address what will come of the recreation and tourism economies in this region. There is an enormous lack of information on impact pertaining to this oversight. Idaho's recreation and tourism generates 78,000 jobs and over 7 billion dollars in consumer spending. These numbers are too significant to ignore. This is a state's livelihood and a country's outdoor oasis. Please do not grant permission to Midas to mine on public land. This land is OUR land!!!!
