First name: Kailee

Last name: Jamieson

Organization:

Title:

Comments: I am writing in regards to protecting the South Fork of the Salmon River. It is an iconic place for any kayaker to face true force of nature. I have never been quite connected to any group of people as I have the Kayaking community. My husband has been kayaking since he was eight and my four-year-old since he was two. We love this river and want to fight for it. Please do not mine in this area. It will greatly damage such a beautiful place that is meant to bring us together. Please listen to our voices. We want it's clear, wild waters to be untamed. Let it live on for my son's generation and generations to come.
