Comments: I oppose the Midas Gold Stibnite projec (Stibnite Gold Project EIS #50516). I'm a born and raised Idahoan, and a whitewater and flyfishing guide on the Middle Fork Salmon and Main Salmon rivers. Healthy, connected waterways are critical to our rural riverside communities, salmon/steelhead, and Idaho tourism. The costs don't match the benfits of this project. I'm concerned reclamation plans are inadequate. An open pit mine is unacceptable for this area, and I strongly oppose this project.
