Title:

Comments: I'm a Boy Scout here in McCall, and there's no one in my whole troop that wants Midas Gold coming here. We're already seeing our community changed by all the people moving here and taking away our ranch and farm land, and the Wilks brothers taking away our forests and trying to put in asphalt plants and now Midas and Barrick Gold want to scar the dwindling land even more. Can't there be just one place left pristine in Idaho? Does the Forest Service have to let every place be ruined? Can't you say no, just one time, not just for the salmon but for those of us who were born and raised here?
