First name: Abraham

Last name: Herrera

Organization: BoofSessions kayaking

Title: Owner/founder

Comments: As an individual who values the rivers and spectacular whitewater resources of Idaho, I am writing to support Alternative 5, the No Action Alternative outlined in the Stibnite Gold Project's Draft Environmental Impact Statement. I am not writing representing a "special interest group," I am writing as a concerned citizen and stakeholder who utilizes these public lands in their current undiminished state, lands for which I am an owner of and for which the Forest Service is directed to manage in the public interest. The rivers of the South Fork Salmon watershed contain world class whitewater that paddlers from across the country and the world travel to Idaho to visit.

Absolutely irresponsible and dangerous to the sovereign of this country, we need to ensure the quality of the water for the future and well being of our communities and ecosystems, as it is not something that we can retrieve. Damaging such precious ecosystems will never be worth any kind of money. Gold mining is devastated land and water all over the planet and it will never come back from what it once was. Let's learn from California mistakes and don't do the same.

I beg you do not allow Stibnite Gold Project to violate this lands.
