Title:

Comments: Dear Forest Service,

I am writing to you to express my concern regarding the potential Stibnite Gold Project. As a wildland firefighter, hunter, and American living within the blessing of our public land, I want to strongly object to the development of the Stibnite Gold Project. Time and again, extractive mining has promised economic development as well as a clean recovery, and time and again these promises have fallen flat, leaving long-term pollution to our public land, and little lasting economic benefit to local communities.

I would like to submit a Comment Extension Request, enabling local Idahoans, and Public Land Owners across the country further time to engage with the proposed Stibnite Gold Project.

Thank you for your time,

Kyle
