Title:

Comments: I have lived in Idaho my entire life and know that I am not alone in the admiration and respect that I freely give to our public lands and wilderness areas. Given that 2020 has been a year full of unprecedented times, I would like to propose that the public comment period for this project be granted a further extension. There are simply too many factors to consider at this point in time to allow the public a fair chance to fully engage with the scope of this project and how it may or may not affect their lives.
