Title:

Comments: I absolutely OPPOSE the Midas Company Stibnite Gold Project. Most of my 74 years have been spent living and recreating in the Northwest (mostly Idaho) and I have observed and learned that NO mining operation can be conducted without serious environmental degradation and related human health concerns. The area encompassing Stibnite is a perfect example. With the very real potential for compromising the water quality of the South Fork/Main Salmon rivers (and associated fisheries) it seems like an easy no-brainer to deny a permit to Midas. In the interest of protecting Natural Resources on Public Lands...Just say NO. PC 50
