Comments: Thank you for the opportunity to comment on the SGP DEIS. I've been working on my comment letter this weekend and have had trouble accessing the full DEIS from the USFS website.

I was able to see through Chapter 2 when my computer froze. Fortunately, I only lost some of my work. It is still quite frustrating.

If I am unable to gain access tonight, I hope I can get a print copy this week before the deadline. If the problem can't be fixed soon, I hope you'll consider extending the deadline.
