Comments: Our Ouray based organization supports the approval of this application. OSM has been a very responsible organization and can be counted on to always do the right thing. They have taken steps to insure minimal environmental impacts and have also worked to clean up old issues that they did not create. OSM is a great community supporter for the City of Ouray and has created a very positive economic impact. The lack of surface disturbance is a big positive and this lease allows them to extend their underground work and potentially extend the life of the mine and it's positive impact on Ouray. Thanks.
