Title:

Comments: As a resident of the City of Ouray and business owner I fully support the approval of the application. OSM has been a very responsible corporate citizen and can be relied on to do things properly. OSM continues to have a very positive impact on the City of Ouray and the approval of these leases will allow the operation of the mine to be extended. This will also extend to positive benefits to the community. The road used to access the mine is also one of the most popular jeep and tourist destinations in the area and is subject to enormous recreational traffic. The traffic produced by the mine is a very small percentage of overall use and does not have a material negative impact on the area and the road and community are benefited by the maintenance assistance provided by the mine. Please approve the application.
