Comments: Thank you for the opportunity to provide support for the Midas Gold Project in Stibnite, Idaho.

We are in the heart of Valley County and realize the importance of improving the environment of Stibnite. Lots of locals use this area for hunting, camping, and recreation. One of our interests is The 4 Summit Bicycle Challenge. This ride uses the Salmon River and Warm Lake roads. Beautiful Ride, Enjoyed, are comments by all the riders. The Stibnite project people listened to the locals and are in favor of an old road (The Burnt Log) that will help keep traffic off The Salmon River roads. This shows the concern The Midas Gold Idaho people have for the communities and the environment. Their phrase of "Restore the Site" is well founded by their actions and listening.

We wish the success of the project not only for the people of Valley County who will have jobs to support their families but investors who understand the importance of cleaning up a Brown Field site. And the infrastlucture contributions to the school, hospital and city. Thank You Midas Gold Idaho.

We request your support Ms. Jackson for the Stibnite Gold Project.

Thank you for your time and support.
