Title:

Comments: My family has owned vacation property in Idaho since 1990. We were drawn to the area by its beauty & pultiple outdoor opportunities. We are currently building a \$600,000+ home & pull continue to spend money as we have for decades, in central Idaho. The environment risks associated with the Midas Gold Mine & possible loss of vacation income from the whole area by visitors like me do not offset gains. The South Fork of the Payette is a unique & project.
