Comments: South Red Bird Wildlife Enhancement Project

Because I believe we should consume less paper, which means cutting fewer trees, my family began to use paper products made from bamboo and sugar cane. The products can quickly renew, but our forests cannot. I'm writing to ask you to protect the Redbird area and all of Daniel Boone National Forest from tree harvesting. This is our land, our trees and our forest. Do not use it as a way to make money by harvesting our trees.

Sincerely,

Denise Houchins

Smiths Grove, KY
