Comments: (c) Determination. The determination that an emergency situation exists shall be based on an examination of the relevant information. I IMAGINE THAT THE DETERMINATION WILL BE HOW MUCH LAND IS USED FOR CATTLE AND LIVESTOCK, studies have shown they destroy our public lands. BUT HORSES, STUDIES SEEM IGNORED; HELP OUR GRASSES and public lands. Such a large number of livestock in ratio to wild horses. It seems wrong in the first place, to use our public lands so heavily for livestock, therefore, putting wildlife in danger, just so more livestock can pasture on OUR, the taxpayer, public lands.
