Title:

Comments: Hooray! It's about time we stepped up the fuel reduction process. Thank you for getting this moving.

I noticed in the proposed action document that the area above my neighborhood, Jennifer drive, Incline Village at Lake Tahoe seems to be listed as Rx status 'unavailable'. I'm not sure what this means, but I can tell you that there are many many large burn piles just past the forest service boundary on the Rose Knob are that have been sitting there for years. To me these represent a fire hazard and a danger to hikers and skiers that frequent that area.

Thanks for your attention to getting these burn piles taken care of!
