First name: Robert

Last name: Chernikoff

Organization:

Title:

Comments: Born and raised in Southeast Alaska, I come from a family of Alaskans that have Pioneer roots in the state. I also work for Coeur Ak and have seen first hand the environmental protections that they have put in place. I would not support a project that would damage the environment. This project has yielded a benefit to the local community of Juneau and Southeast, as well as future generations. Coeur Ak has shown their commitment by 'Protecting the Environment while Producing'. Ultimately the Project overall will show a positive economic as well as environmental impact.
