Comments: My comments are as follows, I would like to see the 14 day camp limit unforced on the Manti forest , I have witnessed some camp sites taken for as much as 1 month at a time and feel this rule is very much abused due to lack of enforcement.
Also I would very much like to keep horse and hiking trails unencumbered with motorized vehicles including e bikes as with all non motorized trails as it poses a safety hazard , I enjoy riding atv and also horses but they are not compatible on the same trails. Thanks
